After 25 years of direct selling and executive sales management for two of the premier power transmission and bearing manufacturers, I joined a company utilizing Manufacturer's Representatives as the field sales force. PTRA provided resources and relationships that facilitated an easy transition from a direct sales force to selling through Reps. Through the process I have found that if managed properly, selling through Reps has many distinct advantages and being a member of a dedicated organization like the PTRA has helped our company maximize the efficiency of our critical frontline sales team.

The annual PTRA convention provides manufacturing members with an excellent venue for interacting with all of their Rep partners in a great environment for learning how best to achieve success in the selling effort. The Rep Mix allows members to meet and discuss critical issues as well as a great opportunity to fill open territories when needed. During my five years as a PTRA member, the convention agenda has continually opened my eyes to the motivations that drive productive Manufacturer/Rep relationships.

Overall, the excellent training opportunities, legal assistance, and relationship building makes the PTRA an organization that is a must for any company that utilizes Manufacturers Representatives. PTRA has been extremely beneficial in my transition and in the acceleration of KWS sales growth. KWS will continue to expand our support and participation in the PTRA for many years to come.

Jim Collins Executive Vice President Sales & Marketing KWS Manufacturing Company, Ltd.

MISSION STATEMENT

The **POWER-MOTION TECHNOLOGY REPRESENTATIVES ASSOCIATION (PTRA)** is an Association of independent manufacturers' representatives and manufacturers dedicated to promoting the sales representation (rep) function in the power transmission and motion control industries. PTRA will strive to offer all members opportunities for education, information exchange, networking with other reps and manufacturers, plus an array of quality services designed to improve career performance and professional stature.

CODE OF ETHICS

The position of the representative is unique in that he is the liaison between the distributor, the original equipment manufacturer, the consumer, and the company he represents.

As a power transmission/motion control advisor he owes a high professional duty towards the distributor, the original equipment manufacturer and at the same time he occupies a position of trust and loyalty to the company he represents.

Only by observing the highest ethical balance can he avoid any conflict between these obligations.

THEREFORE, I BELIEVE IT TO BE MY RESPONSIBILITY:

- To hold my business in high esteem and strive to maintain its prestige.
- To keep the needs of my distributors always uppermost.
- To respect my distributors' confidence and hold in trust personal information.
- To render continuous service to my distributors, customers, and their employees.
- To employ every proper and legitimate means to persuade my customers to use the proper equipment for the application if known; but to rigidly adhere to the highest standards of business and professional conduct concerning these recommendations.
- To present accurately, honestly, and completely every fact essential to my distributors' and customers' final decisions.
- To perfect my skills and add to my knowledge through continuous thought and study.
- To study my business on such a high plane that others emulating my example may help raise the standards of our vocation.
- To keep myself informed with respect to my manufacturers' policies, rules and regulations, and to observe them in both letter and spirit.
- To respect the prerogatives and cooperate with all others whose services are constructively related to ours in the meeting of the needs of our distributors and customers.
